NCRD's SIMS ranked 35th among India's elite non-IIM B-schools survey 2023-24.

ABOUT THE CONFERENCE

As per the National Education Policy (NEP) 2020, "Education is the single greatest tool for achieving social justice and equality" which has implications for developing an inclusive community and society.

The principles of diversity, equity, and inclusion need to be embedded within the education system which will bring many opportunities for lifelong learning to create a bright future for the learners. Managing inclusiveness and diversity through innovative technologies is paramount in navigating the future. As society progresses, embracing diversity becomes not only a moral imperative but also a strategic advantage. Leveraging cutting-edge technologies such as Artificial Intelligence, Machine Learning, Virtual Reality, and Data Analytics offers unprecedented opportunities to foster inclusivity and diversity in workplaces and communities. These tools enable organizations to identify biases, promote equitable practices, and create inclusive environments where individuals from all backgrounds can flourish. This international conference at Sterling Institute of Management Studies aims to explore how organisations can navigate future by managing inclusiveness and diversity using innovative technology.
